

Policy 300 – Statewide Migration to IPv6

PURPOSE

This policy establishes the expectation for state agencies that own/support infrastructure and/or applications migrate to Internet Protocol version 6 (IPv6) in support of the state’s strategy for Infrastructure modernization including radio frequency (RF) communications. Industry migration to IPv6 is already underway and IPv4 will become unsupported. This policy does not apply to the K-20 Network.

POLICY

1. All agencies must migrate to IPv6 by December 2025.
 - a. IPv4 must be decommissioned by December 2025.
2. All technology investments, acquired or developed after the date of policy adoption, must be IPv6 compliant.
3. All agencies must use centrally allocated IP address space as described in Enterprise Service Designation [185.20 – IP Address Management](#)
4. All agencies must have a migration implementation plan prior to December 2020.
 - a. All agencies must report the completion of their migration plan to the OCIO.
5. All agencies must report their status of migration as part of the annual certification process.
